SUBJECT: COIL CLAD 10S® SILICONIZED POLYESTER COIL COATING SYSTEMS THIRTY (30) YEAR LIMITED WARRANTY For HDG Steel, (G90, G-60), Zinc-Aluminum Alloy Steel for Metal Building Components

Dear Sir(s):

We are pleased to present you with our thirty year (30) Coil Clad 10S® Siliconized Polyester limited Warranty, which is below.

1. Our Coil Clad 10S® Siliconized Polyester family of coil coatings, properly applied to HDG steel, G90, G-60, Zinc-Aluminum Alloy steel for commercial or industrial building parts will meet the following standards from the date of installation:

WILL NOT crack, check or peel (lose adhesion) for thirty-(30) years. But this does not include minute fracturing, which may occur in proper fabrication of the building parts. Failure due to substrate corrosion is excluded.

SIDEWALL PANELS [for twenty-five (25) years from installation or twenty-five and one-half (25½) years from application]

- a. WILL NOT chalk in excess of ASTM D-4214-89 method D659 number eight (8) rating at any time for twenty-five (25) years.
- b. WILL NOT change color more than five (5.0) Hunter ΔE units as determined by ASTM method D-2244-93. Color change shall be measured on an exposed painted surface that has been cleaned of surface soils and chalk, and the corresponding values measured on the original or unexposed painted surface. It is understood that fading or color changes may not be uniform if the surfaces are not equally exposed to the sun and elements.

ROOFING PANELS [for twenty-five (25) years from installation or twenty-five and one-half (25½) years from application]

- a. WILL NOT chalk in excess of ASTM D-4214-89 method D659 number six (6) rating.
- b. WILL NOT change color more than seven (7.0) Hunter ΔE units as determined by ASTM method D-2244-93. Color change shall be measured on an exposed painted surface that has been cleaned of surface soils and chalk, and the corresponding values measured on the original or unexposed painted surface. It is understood that fading or color changes may not be uniform if the surfaces are not equally exposed to the sun and elements.

2. In case of a complaint, you will provide access to us and assist us as necessary in determining the exact cause of the failure. ASTM and NCCA testing procedures will be used.
3. If our Coil Clad 10S® Siliconized Polyester family of coil coatings fail to comply with our limited Warranty, we will pay for labor and material reasonably necessary to repaint, repair or replace, at our option, the building part showing the failure. In order for the warranty to be in effect, however, you must notify us in writing of the failure within thirty days of the discovery of such problem and provide documentation we may require. If we repaint, we will use normal painting practices using Coil Clad 10S® Siliconized Polyester or other suitable alternatives. This Warranty also applies to the part we repainted, repaired, or replaced, but only for the unexpired portion of the Warranty period applicable to the original part.
4. Our LIMITED WARRANTY DOES NOT APPLY to circumstances which we do not control, including:
 - a. Fire or other casualty or physical damage;
 - b. Unusual harmful fumes or foreign substances in the atmosphere, standing water, or direct salt spray;
 - c. Misapplication of the Coil Clad 10S® Siliconized Polyester coil coatings (that is, the coating was not applied in accordance with our specifications and instructions as outlined on our product data sheets);

- d. Improper treatment of or defects in the metal or in the fabrication; and
- e. Mishandled Products, e.g., ANY PRODUCT, WHICH HAS BEEN ABUSED, ALTERED, MODIFIED, USED IN A MANNER NOT ORIGINALLY INTENDED, OR STORED CONTRARY TO OUR INSTRUCTIONS. Including a) damage to the product occasioned by condensation attributable to improper packaging, handling, shipping, processing, and/or installation; b) damage due to failure of the substrate.
5. This warranty will apply only to metal which is coated with Coil Clad 10S® Siliconized Polyester and used on property located within the Continental United States, Alaska, Canada, and Mexico.
6. Some colors may not meet our high standards. So the Warranty applies only to colors that are on our approved color lists.
7. It is MACSTEEL's responsibility to familiarize the coil coaters, which apply Coil Clad 10S to metal on its behalf:
- With the terms and conditions of this limited warranty, and to require that each coil coater send to Valspar two (2) representative samples (each 12" x12) of metal coated with each batch of Coil Clad 10S (as identified by batch number) promptly following its coating. These samples must identify the number of the coil, the date of coating, the Coil Clad 10S batch number applied, and the name of that party who will fabricate the coil into metal building components. MACSTEEL must also maintain records for 32 years that will identify the master coil number for each building erected in the field, which shall be available to Valspar on request.
 - It will be necessary for us to visit your coil coaters facility from time to time to observe their procedures in applying Coil Clad 10S® Siliconized Polyester coil coatings. So, your coater must make their facility available at reasonable times for our visits.
6. We need to make clear that this is our only Warranty concerning these Coil Clad 10S® Siliconized Polyester coil coatings. And that we have no other obligations concerning them. So, please read and understand the following:

Except for this Warranty, we make NO WARRANTY OR GUARANTEE EXPRESS OR IMPLIED WITH RESPECT TO THE COIL CLAD 10S® SILICONIZED POLYESTER FAMILY OF COIL COATINGS. IMPLIED WARRANTIES OR FITNESS AND MERCHANTABILITY ARE EXCLUDED. Further, we have no other liability with respect to the Coil Clad 10S® Siliconized Polyester family of coil coatings, whether based on Warranty, negligence or any other legal theory. For example, we have no liability for consequential damages.

7. This limited warranty is issued only to MACSTEEL, and shall become effective only upon the execution hereof by both Valspar and MACSTEEL. It is not transferable or assignable to any other party. As an inducement for Valspar to make this limited warranty, MACSTEEL also agrees that it will not itself warrant the performance of products coated with Coil Clad 10S to any party more commercially remote than the original owners of metal buildings constructed with the product. It is likewise agreed that this limited warranty does not apply to any Coil Clad 10S failure or effect that occurs after the sale or transfer of a metal building constructed of Coil Clad 10S coated product by its original owner.

In the case of:
 MACSTEEL SERVICE CENTERS, USA
 3123 E Apache
 Tulsa, OK 74110
 Attention: Art Baum.

In the case of:
 THE VALSPAR CORPORATION
 901 N. Greenwood Avenue
 Kankakee, IL 60901
 Attention: Al Dunlop
 Vice President, Coil & Extrusion

IN WITNESS WHEREOF, Valspar and MACSTEEL SERVICE CENTERS, USA have executed this agreement on this day and year shown below:

MACSTEEL SERVICE CENTERS, USA

By Art Baum

Title Sales Manager

Date 3-16-04

THE VALSPAR CORPORATION

By Al Dunlop
